

Data: Best friend of Nat Cat Prevention, best enemy of solidarity!

LES ATELIERS DU FUTUR

Thierry Langreney

EU Commission 14 mars 2025

Who We Are

ADF: A Climate Change Mitigation focused NGO

- Our COP29 Call for action to Joe Biden, Xi Jinping, Christine Lagarde, Jerome Powell, Ursula von der Leyen
- Insurance and car fleet decarbonization: Our Call for action to Ursula von der Leyen, Michel Barnier
- QCR#1: Our Call for Action to Joe Biden, Xi Jinping, Jerome Powell, Christine Lagarde, Ursula von der

- Palmarès 2024 des Trajectoires Climat du CAC 40 (hors institutions financières)
- Palmarès 2024 : Retour détaillé sur Le Vouloir Faire
- Insurance and car fleet decarbonization: Our Call for action to European Car Makers: Stellantis, Renault, VAG, Mercedes-Benz, Volvo.

- Scope 3 Aval des (Ré)Assureurs: Notre
 Recommandation au GHG Protocol (12/2024)
- Downstream Scope 3 of (Re)Insurers: Our Recommendation to GHG Protocol (12/2024)
- Recherche 2024: Sphère d'influence ou Économique:
 Quelles frontières pour la RSE?
- 2024 research: Sphere of Influence or Economic
 Sphere: What limits for CSR?

A specific report in 2023 focusing on Insurance and Climate Change

Final report

ADAPTING THE FRENCH INSURANCE SYSTEM TO CHANGING CLIMATE RISKS

A framework for action to preserve the risk pooling system and accelerate the insurance industry's contribution to climate change efforts. adapting and decarbonising the French economy

Thierry LANGRENEY, Chairman of Ateliers du Futur

Gonéri LE COZANNET, Engineer at BRGM, co-author of the 6^{hmc} IPCC report

Myriam MERAD, CNRS Research Director, Université Paris Dauphine-PSL

December 2023

Insurance:

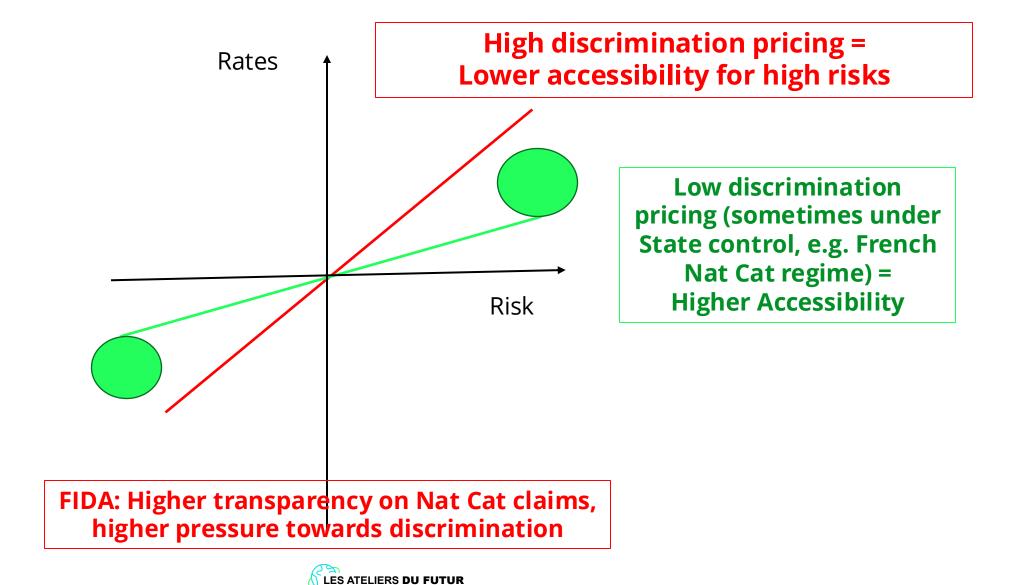

Data, best enemy of Solidarity, best friend of the Protection gap

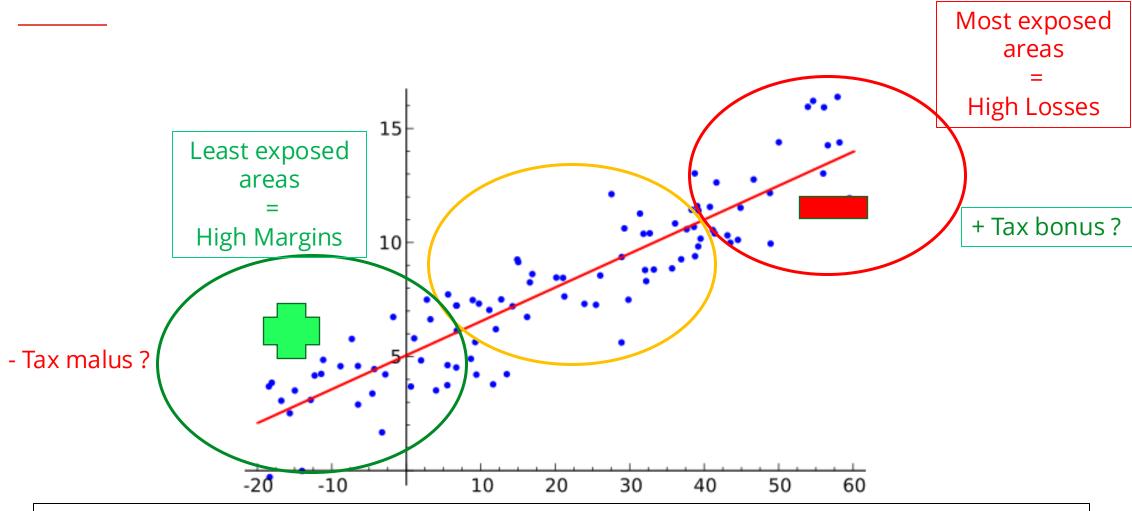

Data: Best enemy of Solidarity, best friend of the Protection Gap

French Nat Cat Regime: Solidarity demands margin transfers

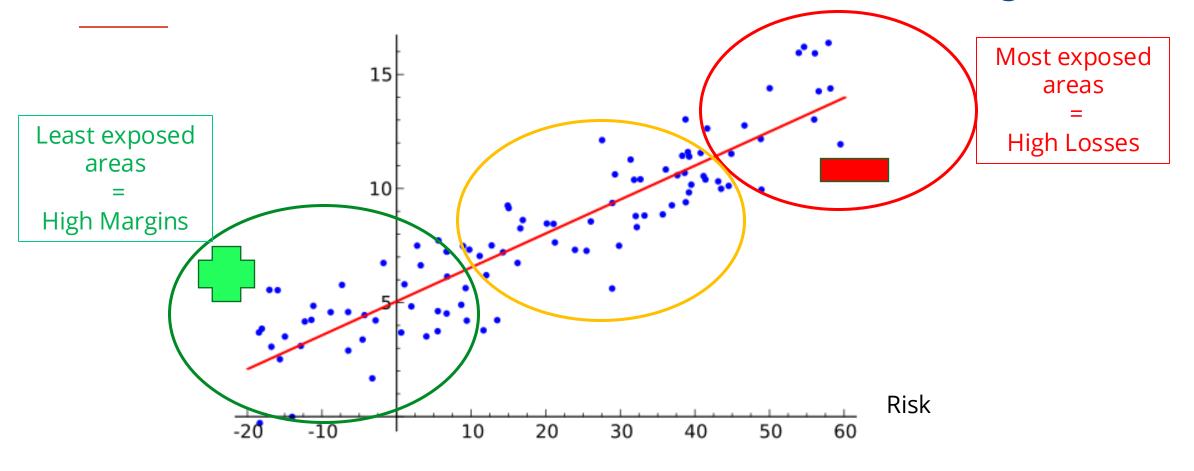

Cross subsidiation today derives only from (i) market discipline/responsability and (ii) CCR (state) reinsurance.

In the future, we recommend a tax bonus/malus on premiums to equalise results

Nat Cat and Fida/discrimination: 2 threats to the Nat Cat Regime

Flight to profitable areas : ++	= Risk to red zone players
CCR Reinsurance cross subsidiation : From 50% ceded on all Nat Cat business to little or no cession by players focusing on least exposed areas	= Risk to CCR and red area insurers

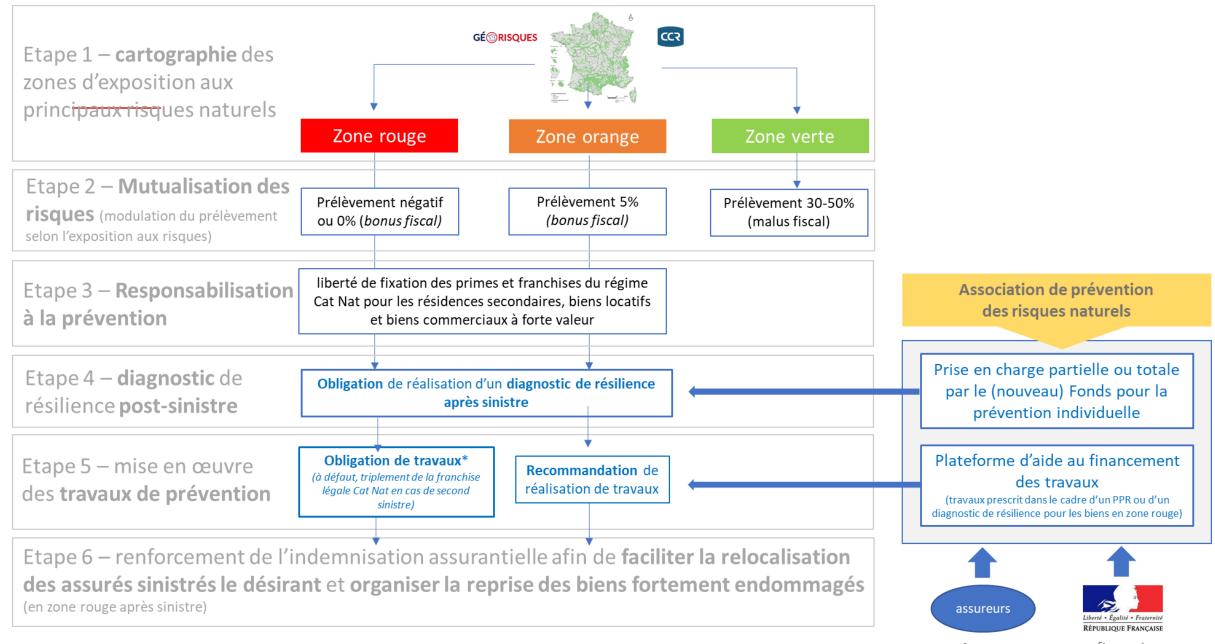

Prevention:

A truly fruitful investment

^{*}Pour le risque RGA, cette obligation de travaux ne porte que sur les mesures dites horizontales recommandées dans le diagnostic de résilience.

Accompagnement financier (avances remboursables, crédit à taux nul, dispositif « type MaPrimeRénov' »)

Mitigation:

Insurers have a huge potential impact

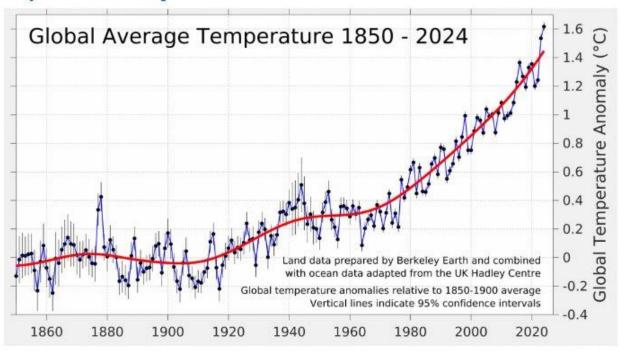

As a reminder...

Temperature Anomaly

Natural disasters in 2024

Munich Re NatCatSERVICE

January 2025

	The figures of the year 2024	The figures of the year 2023 (adjusted for inflation)	Average of the last 5 years (2019 – 2023) (adjusted for inflation)	Average of the last 10 years (2014 - 2023) (adjusted for inflation)	Average of the last 30 years (1994 - 2023) (adjusted for inflation)
Overall losses in US\$ bn	320	268	261	236	181
Insured losses in US\$ bn	140	106	106	94	61
Fatalities (approx.)	11,000	77,600	23,000	17,500	42,000

3 recommandations to Insurers towards Net Zero

A - 10.000 €bn AUM:

Transition Plans under regulatory supervision

B – Large claims:

Green Clauses to facilitate replacement with electric vehicles/heat pumps

3- Carbon Footprint:

Indemnified emissions are critical.
